"Time will be cut down by minutes always.
You don't need to go back for another pass with a squeegee nor spend time wiping glass on all your countless mistakes.
10 minute job: 1-2 minutes shaved off overall time. 20 minute job: 3-5 minutes.
I do one 45 minute job and it will save me 10 minutes or more!"

"This will revolutionize window cleaning."

"It does clean all the water and soap from the edges very well!"

From thick rubber seals, old window steel edges and residential windows of all kinds from wood to plastic frames."

Why is that ? Because with Liquidator mistakes rarely happen.

Standard squeegees have many issues with the rubber bending on all kinds of windows and seals."
